ARE YOU putting Ten Per Cent of your Income into U.S. War Bonds & Stamps?

WAR FACTS

The man who drives his own automobile wears out about 25 times as much rubber as is used per individual on the average city bus.

*****

Heavy bombing planes require over three tons of rubber items —enough to make 600 passenger car tires.

*****

Medium-sized tanks use more than a ton of rubber products each.

*****

A batleship contains 75 tons of rubber, or enough to make about 900 million ruber ands.

*****

A 35,000 ton battleship needs tons of rags for wiping purposes.

*****

The war effort is benefitting by 10,000 pounds of aluminum scrap through the juking of the "City of Salina", described by the Union Pacific as "the world's first streamline train".

*****

World rubber-producing capacity is 1,710,000 tons, and the United States ordinarily uses something over half of the amount actually exported.

*****

The number of women working in the aircraft plants perfoming almost every type of operation after training by the companies has increased nearly 900 per cent since December 7, 1941.

*****

If the lead situation continues as at present, by the year-end the United States should have a hoard big enough to supply lethal slugs for 4$ billion .30-caliber bullets.

*****

Patino Mines has not lost a pound of tin on its long haul from Bolivia to England, according to late records.

*****

Out of present silk and nylon yarns, hosiery makers expect only enough rayon to replace 60 per cent of the former output of these two commodities.

*****

A standard pursuit plane requires 400 pounds of rubber, and a four-engine bomber requires a ton.

*****

A 37 mm. anti-aircraft gun carriage requires 298 pounds of rubber, and the President has called for 20,000 anti-aircraft guns this year and 35,000 next year.

*****

Every time the clock ticks off another second, the government spends. $1,412. That's the spending rate now— during tthe month of June, 1942.

*****

The Army Quartermaster reports that during a soldier's first year of service, he needs a minimum of ten pairs of shoes.

*****

A transcontinental bus line reportedly gets about 300,000 miles out of each rayon cord tire, with seven retreadings.

OFFICIAL U. S. TREASURY WAR BOND QUOTAS FOR JULY

The above map of California shows the War Bond quotas, by counties, for the month of July, 1942. Total War Bond quota for the state is $61,687,000. With the National quota total placed at a billion dollars, the nation goes into high gear in its support of the War financing and to give our fighting forces adequate implements of war which will bring ultimate Victory. American Soldiers, Sailors, Marines and Airmen are on every front. They are giving 100 percent for their country. What are we doing here on the home front? Are we lending at least ten percent of income to help them? It's very little. But to fight this war successfully our country needs a billion dollars in War Bonds every month from us—the People. Let's Go, America. *U. S. Treasury Department*

Day-time Ice Follies Tomorrow, July 4th

First daytime performance of the spectacular new Ice Follies of 1942, now playing nightly at Winterland in San Francisco, will be held Saturday afternoon, July 4, it was announced this week.

The special matinee was set in response to thousands of requests, a large part of which came from those planning to visit San Francisco over the holiday week-end.

The same great cast of stars and the same sparkling ensembles which appear nightly in the new Ice Follies will be on the program for the matinee, which is the only daytime show now scheduled by the dazzlin revue.

International skating stars being featured in "the world's greatest musical revue on ice", will all be on hand for the matinee. They include Eddie Shipstad, Oscar Johnson and Roy Shipstad, producer-stars of the Ice Follies; Bess Ehrhardt, "America's Sweetheart of the Ice"; Franl ces Claudet, Osborne Colson, the Galbraith and McKellen Brothers, Frick and Frack, the 50 dazzling "Ice Folliettes" and many others.

The San Francisco engagement of the Ice Follies is carrying on the tremendous boxoffice records set by the glittering show thruout the East during the last winter season, when virtually all performances were sold out. Locally, the show is setting new attend ance records each week.

This year's Ice Follies is a completely different version of the famous entertainment which has thrilled more than a million persons in the Bay area during the past three years.

Mrs. Charles Fritz Gets Share Of Estate

Mrs. Esther Mott Fritz, of the Trinity Episcopal Church rectory, Ravenswood and Pine streets in this city will receive the residue of the estate of her sister, the late Elizabeth VVan Cleef JJones, who died June 3, leaving an estate formally valued at "over $10,000."

Her husband, the Rev. Charles E. Fritz, was left $1,000.

Included in the will were thirteen specific bequests totalling $42,500.

John Fraser Jr. Must Answer By 10th

John D. Fraser Jr., 20 of this city was granted until July 10 to answer a separate maintenance suit brought by his wife, June C. Fraser, showgirl, by Superiou Court Judge Maxwell McNutt this week.

Fraser had sued his wife for divorce or annulment on the grounds that she had induced him to marry her on the pretense that she was to become the mother of his baby. Mrs. Fraser, in her cross-complaint, charged that her mother-in-law, Mrs. Esther R. Fraser, had engineered the suit against her.

Young Fraser is to appear in San Francisco July 23 on charges of negligent homicide filed after his automobile killed Jose Torres, 41, in an accident last Friday.

BABY SEELIG ARRIVES

Mr. and Mrs. Frank Seelig, of 103 Felton drive, this city, are the proud parents of a daughter born to them in the Palo Alto Hospital at 1 o'clock on the morning of Tuesday, June 30. The little lady weighed 7 pounds 3 ounces.

PG&E Wins Coveted Hughes Award

Presentation to the Pacific Gas and Electric Company of the Hughes Award for outstanding achievement in the promotion of domestic electric cooking was a prominent feature of the recent annual convention of the Edison Electric Institute in New York. The award, consisting of a trophy for the company and $500 for the individual or individuals responsible, is first prize in a competition sponsored by George A. Hughes, chairman of the Edison General Electric Appliance Company, Inc., and is offered for distinguished contributions made by public utility operating companies to the development of markets for electric ranges.

At the opening session of the Institute, which was attended by utility executives from the forty-eight states, B. W. Reynolds, manager of domestic sales for P. G. and E., received the award on behalf of his company. Personal presentation was made by George A. Hughes, who is frequently referred to as "the Father of the Electric Range". In bestowing the prize, Hughes paid tribute to the utility company for its splendid work during the year in extending the multiple conveniences of electric service to the remotest sections of the territory it serves.

Hughes also announced that his company, after making and selling more than a million electric ranges designed to further the comfort and convenience of American homes, is now "devoted exclusively to the manufacture of appliances intended to furnish discomfort and inconvenience to the enemies of America."

Faithful Service

ABUNDANT GRATITUDE is due to our soldiers who leave all and go to defend country, home, freedom, Christianity. In their unselfish service, they stand ready to give the "full measure of devotion" for a right ideal.

The Apostle Paul was a great soldier who gave his earthly all for the cause of Christ. In his second epistle to Timothy he said (2:3, 4): "Endure hardness, as a good soldier of Jesus Christ. No man that warreth entangleth himself with the affairs of this life; that he may please him who hath chosen him to be a soldier." Now, as always, each one is chosen to be a soldier of Christ, to win the battle for freedom and peace for himself and for all mankind.

Mary Baker Eddy, the Discoverer and Founder of Christian Science, in a message to The Mother Church in 1898, wrote as follows (Christian Science *versus* Pantheism, p. 14): "In your peaceful homes remember our brave soldiers, whether in camp or in battle. Oh, may their love of country, and their faithful service thereof, be unto them life-preservers! May the divine Love succor and protect them." Today these words inspire the grateful heart to uphold with justice, good works, and humble, consecrated prayers, "our brave soldiers, whether in camp or in battle."

In these perilous times shall not each one answer the call and obey the demands of our great Master, Christ Jesus, who said (John 8:31, 32), "If ye continue in my word, . . . ye shall know the truth, and the truth shall make you free"? Continuing in his word, we escape the entanglements of sin, sensuality, and intemperate habits, which would weaken, confuse, and destroy our ability to be good soldiers of Truth. . . .

The battle for freedom is being waged primarily in individual thinking, where the hordes of evil

(Continued on Page Four)

Make victory sure! Make peace endure!

County Clerk Gives Election Information

For the information of persons interested as candidates for election to the County Central Committee, W. H. Augustus, County Clerk, announces that an amendment to the **Election Code** sets up a new system of determining the order that the names of candidates shall appear on the ballot. This is porvided for in Article 3, Section 3935.5 of the **Election Code**, which reads in part as follows:

"39335.5. **COUNTY CENTRAL COMMITTEE.** If the office is that of a member of a county central committee, the names of all candidates, including incumbents, shall be arranged upon the ballot in order determined as follows:

"At 10 a. m. on the **second Monday** following the last day on which declarations of candidacy may be filed, the county clerk shall hold a public drawing to determine the order of names on the ballot. The name of each candidate shall be written on a separate and identical slip of paper which shall then be folded to conceal the name and deposited in a box. After all slips have been deposited, the box shall be shaken to mix the slips thoroughly. The slips shall then be withdrawn by the clerk, and the names of the candidates listed in their order of withdrawal. This order shall determine the order in which the names of the candidates shall be pronted on the ballot."

The drawing will be held on Monday, July 6th.

Presbyterian Notes

By Rev. E. J. Clark

The wedding of Mr. Albert Conroy of Santa Clara, and Miss Alice Hara, of Hillsborough, formerly of Menlo Park, took place in the Presbyterian Church Wednesday, July first, at 8:30 in the evening, the Rev. E. J. Clark officiating. Music was provided by Mrs. Isabell Lindquist who sang and also played the wedding march. Mr. and Mrs. Conroy will make their home in Sunnyvale where Mr. Conroy is employed.

* * *

The annual picnic meeting of the Women's Missionary Society will be held July 9th, in the Social Hall of the church, the picnic lunch to be served at noon. There will be a special voluntary offering received to meet expenses of quota of missionary sewing asked for in these times. All members and friends are invited to be present.

Drive Carefully Over Week-End Advised

Automobile traffic over the Fourth of July holiday will probably be almost as heavy as in previous years.

Transportation of war workers to and from their jobs and the movement of vital materials will continue this year despite the holiday.

Motorists are urged to forego all unnecessary driving over the week end as a patriotic way of cooperating in the government's program to conserve tires and relieve congestion.

For those who feel they must use their cars, slower speeds and unusual caution are recommended, both to conserve rubber and to avoid accidents that are so costly this year to the individual and the war effort alike.

Put Victory First on the Fourth!

San Mateo County Traffic Safety Commission.

Telephone President Makes Report

Acknowledgement of the splendid cooperation shown by telephone users in helping the telephone industry to meet unprecedented wartime demands in the face of restrictions necessary to save materials vital to the war was expressed today by N. R. Powley, president of The Pacific Telephone and Telegraph Company, in a report covering the coast-wide operations of the company during the first six months of 1942.

Copy of the report was received here today by R. G. Drake, local manager of the company, who stated that it also showed that more than 1300 telephone employees are now in military service and that 97 per cent of the coast-wide personnel is purchasing United States War Savings Bonds through the payrool allotment plan.

The telephone president's report said in part:

"Our company in its allout war effort, through its resources, facilities and personnel is earnestly engaged throughout all brances of its work in playing its full, effective and patriotic part to take our Country through to Victory.

"In compliance with orders of the War Production Board regarding the conservation and restriction of the use by telephone companies of all materials essential to the war effort, all telephone installations are made subject to the requirements of these orders.

"The heavy demand for telephone service continues—both local and Long Distance. The cooperation and expressed sympathetic understanding of our customers regarding the magnitude and importance of the problem with which we are confronted in handling with dispatch the communications directly concerned with the armed forces and the war emergency work make it possible for us to be of maximum service to our Nation and the comunmities and customers we have the privilege of serving."

Yanks Crabbing Over Australia

Private Complains Because He Has to Go to Zoo To See Kangaroo.

AMERICAN ARMY CAMP IN AUSTRALIA.—The biggest complaint that Pvt. Charles Kostenbauder of Altoona, Pa., has about Australia is that he had to go to a zoo to see a kangaroo.

"I always figured that if I ever got to this place I'd see them hopping all over the place," he said, "but I get here and what happens. I ask where are the kangaroos, and they send me around to the zoo. It was just like being at home."

That is typical of the American soldiers' complaints. There aren't any serious ones.

Pvts. George McMahon and John Boone of Missouri discovered that the army wants fighters to do their stuff against the enemy but not against each other. They tied into each other the other morning and were late for duty.

Ordered to Move Cots.

Their punishment was to move camp cots during their liberty hours, working together.

"Hell," laughed McMahon, "the army teaches you to fight and then when you do a little they make you tote cots. But I haven't got any complaint. Everything is fine and there's plenty of mutton."

The resemblance of pound notes to dollar bills was the chief complaint of Pvt. Jim Buckley of Johnstown, Pa.

"Doggone if some of the boys didn't start shooting craps with those pound and half pound notes," he said. "And then they wondered how they got cleaned out so quickly. It doesn't take long to lose your pants when you are shooting like that."

A little more ice on the beer coils will end another and almost universal complaint, for as Pvt. Ferdinand Adameik of Saint Claire, Pa., pointed out, no American likes warm beer. Incidentally, there is very little hard liquor drinking among the troops and few cases of intoxication. Some of the older soldiers, though, have a taste for a locally-produced concoction called potato whisky which is a good deal like rye.

Other Yanks Before Them.

The Yankees are discovering that they aren't the first Americans who came to Australia in force, for there still are traces here of the days when California gold miners arrived in the fifties. One of the landmarks that has held over from that day is "American Joe's Bar."

The old American custom of signing the guest register also is in vogue and at the local museums Pvts. James Eshelman of Lancaster, Pa.; Charles Weber of Chicago, Dominic Cicero of Pine Bluff, Ark., and many others have listed their names.

The Sunday Church Services

PHILADELPHIA CHURCH
Oak Grove Avenue and Mills Street

Please Remember...
WARTIME TRAVEL
is not "As Usual"

The pleasant days of travel "as usual" will come again. But right now the war job comes first—and the traveling public must expect some inconvenience and delay. Greyhound is cooperating fully with the Office of Defense Transportation in Washington, D. C., to provide essential service for all those who must *keep rolling to keep America rolling*—selectees, fighting men and war workers.

THIS NECESSITATES:
- Operating only essential service.
- Eliminating extra buses if not sufficiently loaded.
- Reducing operating speed and eliminating fast, limited schedules.
- Establishing cooperative service with other companies over certain routes to reduce bus mileage.
- Conserving rubber and other vital materials by the above and other means.

HOW YOU CAN HELP:
- Make your trips short—as close to home as possible.
- Travel only during mid-week—Tuesday to Thursday. Week-end travel is congested by military personnel and war workers.
- Carry as little baggage as possible.
- Be lenient if there is any inconvenience, delay or crowding.
- Think twice before taking any trip—postpone it if you can.
- Buy U.S. War Bonds and Stamps.

THE WAR EFFORT COMES FIRST!

GREYHOUND

Gas Warfare And How To Meet It

Chemical Expert Writes Instruction Series

By Dr. Ward L. Mould, Medical Gas Officer U. S. Office of Civilian Defense.

(This is the third of the series of articles about war gases, their characteristics, and measures the civilian can take to protect himself against gas injury.)

YOU CAN PROTECT YOURSELF

This article will present a few simple rules by which injury by war gases may be prevented or modified. If mustard or lewisite are used, the most serious injuries will result from the liquid agent, Therefore, during a raid, remain inside, or go inside if you are out of doors.

Remember that was gases are heavier than air, and will cling to the ground. **You can get twty from the vapor by avoiding basements and other low places.** Even after a raid, it is better to remain inside a building than to try to leave the gas area unless so directed.

Your aid raid warden will guide you to safety when it is safe for you to move.

Basic Rules for Salf-Aid in a Gas Attack:

1. Salf-aid is the **best** aid for the prevention of injuries due to was gases. War gases are usually not dangerous if you take steps immediately to remove them from the skin and eyes. Effective means to accomplish this are in the kitchen and bathroom of every home.

2. If you are inside a building remain there and go upstairs. Dd not leave your house unless it is absolutely necessary. If you are outside and not able to get indoors, **immediately walk — don't run —** to get out of the gas area. Avoid puddles of liquid gas, basements, valleys and other low places.

3. If you have been exposed to a war gas—
   a. Brea the through cloths wet with baking sola solution.
   b. Get inside a building if possible, **but first remove your outer clothing and leave it outside.**
   c. Wash your hands first, and then your face, with laundry soap and water.
   d. After cleaning your hands, wash your eyes at once with a large amount of a solution of baking soda; one teaspoonful of baking soda in a glass of water.
   e. Take a bath, using plenty of laundry soap.
   f. Wash your eyes again with baking soda solution.

4.If splashes of liquid gas have gotten on you—
   a. Using small pieces of cloth, cleansing tissues or toilet paper, blot up as much of the liquid as you can, being careful not to spread it.
   b. Daub the contaminated area with cloths wet with bleaching solutions containing sodium hypo-chlorite, such as, Clorox etc.
   c. Follow directions b, c, and d in 3 above.

5. **Never get excited.** Lie down and cover yourself with a blanket. Medical aid is on the way. There is no immediate serious danger from exposure to any known war gas.

(Continued next week—"The Anti Gas organization in Your City.)

Total	$1,000,000,000	$634,356,000	$600,000,000	+5.7

*Not distributed by States.

Henry Morgenthau Jr., Secretary of the Treasury, today made public the official War Bond Quotas by States for the month of July, which places the nation on a Billion-dollar-a-month basis to aid in meeting the War cost. The above table also gives May War Bond sales in the various states in comparison to the May Quotas. (June sales by states will be available for publication shortly.) The percentage of Quotas range from 71.3 percent above quota in Utah, to 22.6 percent below the quota in Montana, but puts the nation as a whole above the $600,000,000 total May quota. Vulnerable Alaska and Hawaii led all states in sale of War Bonds on quota basis.

"Everybody, every pay day ten percent" is the Treasury slogan which is expected to place one of the attractive new window stickers in every American home. "We're Buying at Least 10%" reads the sticker, printed in the national colors. The new window stickers and the new "10%" lapel button, which indicates that the wearer is investing at least ten percent of his income in War Bonds every pay day, are yardsticks of patriotism in the War Bond Drive.

U. S. Treasury Department

New Vitamins Found to Be Necessary for Health

BOSTON.—Add three new vitamins, one from grass and two in linseed oil, to the 15 known vitamins you must have to be healthy.

Discovery of the three was reported to the Federation of American Societies for Experimental Biology here by Dr. D. W. Wooley, Rockefeller Institute, New York.

The new vitamins almost surely exist elsewhere than in grass and linseed oil, and, although both substances are edible for humans, it is not necessary to mix a grass-linseed salad to get the vitamins. Their nature is still unknown, and they have not been isolated.

Dr. Wooley found them when feeding guinea pigs all the now known dietary essentials available in pure form. These were the known vitamins and sucrose, casein and corn oil, supposedly containing everything necessary. The pigs stopped growing and finally died on this diet. When linseed oil was added they lived a few weeks longer. Then dried grass was added, and the pigs grew and lived o. k.

Find Health of Britons Is 'Surprisingly Good'

LONDON. — Britain's health has remained "surprisingly good" in the third winter of the war, the ministry of health said in its first report published since the war began.

Deaths from respiratory tuberculosis increased, however, to 23,660 in 1940 from 22,199 in 1939. No 1941 statistics were included. The report said the increase was most noticeable among girls and young women in the 15-25 year group.

The number of diphtheria cases decreased in 1940 from the year before, and wartime shifts in population also failed to make scarlet fever more prevalent, it was added.

Families Urged to Make Most of the Farm Boom

BERKELEY, CALIF.—With farm families reaping the highest incomes in several years, Miss Jean Warren, specialist in the University of California agricultural extension service, gives them this advice:

First, endeavor to get out of debt and stay there.

Then buy the clothing and household conveniences you've needed.

If there's still money left, put your homes in good repair.

Doctor Bags a Lion With Bow and Arrow

ALBUQUERQUE, N. M.—Dr. L. G. Vergera spied a mountain lion in a tree 50 feet away.

Carefully he drew a bead and let go. No bark of pistol, crack of rifle or boom of shotgun rent the air—but the big cat came tumbling out of the tree dead.

The doctor did it with his bow and arrow. He got a bear last year.

Mox Henry Ford, 21 underwent emergency treatment at Mills Memorial Hospital, San Mateo, this week following a fall from a Southern Pacific train 200 feet south of Loyola and Glendale streets in Atherton.

He arrived at the hospital shortly before 12:30 Tuesday afternoon and was treated for head injuries, cuts and bruises and an injured knee. He was reported to e in a serious condition. Hospital attendants were unable to further identify the victim.

Attorney General Earl Warren, Non-Partisan candidate for Governor, who pledges "a War Cabinet of the ablest men available for public service—without regard to party affiliations".

All California motorists are being urged to display this windshield sticker, now being distributed by organizations leading the campaign for voluntary observance of a 40-Mile speed limit as a wartime conservation measure. The sticker, in red, white, and blue colors, means the motorist has pledged himself to "Drive for Victory" by reducing speed and thereby prolonging the life of car and tires.

MAKE EVERY PAY DAY WAR BOND DAY
STOP SPENDING—SAVE DOLLARS

It's common sense to be thrifty. If you save you are thrifty. War Bonds help you to save and help to save America. Buy your ten per cent every pay day.

INVEST FOR VICTORY
BUY WAR BONDS & STAMPS ★ REGULARLY AND OFTEN!

THE CONSUMER'S VICTORY PLEDGE
I will buy carefully.
I will take good care of the things I have.
I will waste nothing.

Duration-ize YOUR APPLIANCES with timely repair!

EVERYTHING we buy today must be needful. Everything we own, must, as a matter of national need be made to last as long as possible. Everything we use, we must use carefully and savingly. Very soon now, household appliances, the mechanized equipment on the Home Front, cannot be replaced; therefore the equipment we have must carry on to keep the Victory Pledge. ★ Ranges and Refrigerators must be Duration-ized with timely repair. We must cook food to preserve nutritive values. We must conserve food with proper refrigeration. Vacuum cleaners must keep rugs free of dust and destructive grit. Water heaters and washers must help soap do more efficient cleaning jobs.

★ ★

Take a look at your appliances today. You will be wise to DURATION-IZE NOW with timely repair while factory-made parts are still available. It is a wartime necessity.

Gasolene Sales Steadily Decline

A continued decrease in taxable gasoline sales throughout California as a result of restrictions on automotive equipment was reported today by Ivan C. Sperbeck, second district Member of the State Board of Equalization.

On the basis of Board records, taxable sales of 161, 475,880 gallons were made during May. The assessment amounted to $4,844,-276.43 as compared with $5,623,-772.97 for the same month of the previous year, a loss of 13.86 per cent.

The May sales, however, were slightly in excess of those for April when the tax amounted to $4,574,370.91.

Ubiquitous Housewife Has an Average Week

WORCESTER, MASS.—Mrs. William H. Burke, a housewife, manages to keep busy mothering her nine children, acting as deputy air raid warden, collecting antiques and skating. Her weeks run something like this:

Monday — A two-hour afternoon first-aid class.

Tuesday—Hour-and-a-half air raid warden school.

Wednesday — Two-hour afternoon first-aid course, two-and-a-half hour air raid precautions classes at night.

Thursday — Housework, care of family recreation.

Friday — Air raid precautions school.

Saturday—Skating with the children.

Sunday—Attendance at church and skating.

Mrs. Burke also has taken civilian motor corps training and soon starts a Red Cross advanced first-aid course.

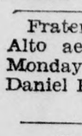

Says Shakespeare Was Liberal User of Slang

LOS ANGELES. — Thousands of people who think they are using modern, up-to-date slang are merely quoting Shakespeare, according to Dr. William Matthews, English professor at the University of California.

The great bard, he said, made free use of such words as duds, ham, guy, and pinch in the same sense as they are used now in slang; also phoney (spelled fawnwy in the Seventeenth century), moll, broad and beak, the latter meaning a judge.

War Pleas Bring Ancient Currency Out of Hiding

KINCAID, SASK.—Money is coming from everywhere to help finance Canada's war effort and many musty old bills are back in circulation—such as those which a resident turned in to buy a victory bond. In the lot were two four-dollar Molson's Bank notes dated 1875, a two-dollar Dominion of Canada note, 1878, a one-dollar Merchants' Bank note, 1878, and a five-dollar Bank of Montreal note, 1871.

Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

Fraternal Order of Eagles, Palo Alto aerie No. 2360, meets every Monday night, 8 o'clock.

Indies' Products Are Vital to U.S.

Hopes for Tin Now Lie in Stock on Hand and in Supply From Bolivia.

WASHINGTON.—The vast stake of the United States in the Netherlands Indies, which is now disintegrating under the Japanese invasion, is more important in terms of things we use and need from that island empire than in dollars and cents.

United States investments in the Indies, the department of commerce said, total $69,800,000, representing principally interests of our great petroleum and rubber concerns in those two most important of the islands' industries. The department would not reveal individual investments of American firms.

But more important than the dollars and cents loss of factories, refineries and plantations in which American capital is interested is the loss of millions of dollars' worth of products of the Indies—$167,644,000 in 1940—many of which are vital to our defense effort.

Rubber and Tin.

While our largest import from the islands has been rubber, $112,916,000 in 1940, the department of commerce terms tin as "probably the most important of our Pacific imports and the hardest one to replace." In 1940 we imported $12,916,000 worth of tin from the Indies. Now that source is virtually cut, together with the more important source of Malaya.

Our hopes for tin is now our stock pile and Bolivia. We are building a smelter in Texas to refine Bolivian tin ore. "Careful consideration of our supply and possible expansion of the Texas smelter will help get us through the war," the department of commerce says.

Our situation in rubber parallels that of tin. Ninety-eight per cent of our rubber came from the Pacific area, and like tin, that which did not come from the Dutch islands came principally from the Malay states. But the department believes that our "second line of defense" in rubber is stronger than in tin. This is because much rubber is reclaimable, and our synthetic production program is expected to meet military and essential civilian needs.

No Worry About Quinine.

In quinine, the specific medicine for malaria and kindred mosquito-borne diseases, the Netherlands Indies have held virtually a world monopoly, producing 90 per cent of the world's supply. Although we use from 4,000,000 to 5,000,000 ounces a year and our main source of supply has been cut off, "there is little in the situation to cause concern among that portion of our population to whom quinine is important," the department says.

Stocks of quinine and quinine derivatives appear to be adequate at present, and we can always fall back on our sister republics of Latin America in case of need.

Many and varied are the other articles we have obtained from the Indies. Palm oil, which is important in tin plating, came principally from there and the Philippines, but the resources of Africa are still open to us. Tanning agents, such as mangrove bark, are very important to us. And then there are many things of lesser importance—tapioca, tea, antimony, copra, mahogany, camphor, nutmeg and pepper—which come from Malaysia.

NOTICE WAR VETERANS

All War Veterans owning property in San Mateo County entitled to the benefits of the Exemption as provided for in Section 1¼, Article XIII of the Constitution of the State of California are requested to file their exemption with the County Assessor as soon as possible in order to aid this office in the completion of the 1942 Assessment Roll. State law provides that all exemption affidavits MUST be filed with the County Assessor before the last Monday in June.

MARTIN J. FLYNN,
San Mateo County Assessor.

Faithful Service

(Continued from Page One)

suggestions and material beliefs that seek to destroy our peace and progress are put to flight and made void by spiritual ideas which come from the all-governing, infinite Mind. These ideas are intelligent, loving, perfect, and complete. They reflect the permanence and power of eternal good; they are the host of angels that guide, protect, and comfort.

A young soldier who was talking with a friend said he was not afraid of battle, whether on land, in the air, on the sea, or under the sea; but he was troubled by the thought of the temptations and inducements to do wrong which present themselves. . . .

As children of the one Father-Mother God, all men possess unalterable spiritual independence and poise. These divinely mental states cannot be shaken, subdued, or obscured. They include neither self-righteousness nor condemnation; but shine through the mists of intolerance, personal domination, arrogance, and ridicule, revealing the perfect man. Those who perform faithful service, firm in their spiritual independence, often experience in return expressions of good fellowship, brotherly love, and appreciation of qualities of character that are spiritual and substantial.

A true follower of Christ, Truth, is law-abiding. He follows the course that, from a human standpoint, is nearest right; that will bring the greatest good to the greatest number. And right motives are rewarded in strength and freedom.

When the commandments of Jesus are here and now obeyed, then will there be peace on earth. And all can obey commands such as these (Matthew 7:12): "Whatsoever ye would that men should do to you, do ye even so to them;" and (John 15:12), "This is my commandment, That ye love one another, as I have loved you."

—*The Christian Science Monitor.*

Men are dying for the Four Freedoms. The least we can do here at home is to buy War Bonds—10% for War Bonds, every pay day.

NOTICE OF TRUSTEE'S SALE

No. 2642

WHEREAS, LOUISE CHARMAK (a femme sole) made and executed to AMERICAN SECURITIES COMPANY, a corporation, as Trustee, for the benefit of AMERICAN TRUST COMPANY, a corporation, a deed of trust, dated September 23, 1938, and recorded on September 29, 1938, in the office of the County Recorder of the County of San Mateo, State of California, in Liber 799 of Official Records, at page 487; and

WHEREAS, default has been made in the payment of the principal and interest of the promissory note secured by said deed of trust, and said American Trust Company caused to be recorded in the office of the County Recorder of the said County of San Mateo, on March 17, 1942, in Liber 1013 of Official Records, at page 145 thereof, being the County wherein the trust property is situated, a notice of such default and of its election to sell or cause to be sold, said property to satisfy said obligation;

NOW, THEREFORE, pursuant to demand made upon it by said AMERICAN TRUST COMPANY, and in accordance with the power and authority conferred upon it by said deed of trust, said AMERICAN SECURITIES COMPANY, as Trustee, hereby gives notice that on Tuesday, July 28, 1942, at the hour of 10 o'clock A. M. of said day, at the steps of the main entrance of the County Court House in the City of Redwood City, County of San Mateo, State of California, it will sell at public auction to the highest bidder for cash in lawful money of the United States of America, all that certain real property situate, lying and being in the Town of Menlo Park, County of San Mateo, State of California, and described as follows:

Lot 13, in Block 7, as designated on the map entitled "MAP NO. 2 STANFORD PARK MENLO PARK, SAN MATEO COUNTY, CALIFORNIA", which map was filed in the office of the Recorder of the County of San Mateo, State of California, on April 2, 1913, in Book 8 of Maps, at page 46.

TOGETHER with the appurtenances.

DATED: June 25, 1942.

(SEAL) AMERICAN SECURITIES COMPANY, TRUSTEE,
BY A. C. McINTYRE,
Assistant Secretary.

LEGAL NOTICE

NOTICE OF LOCAL IMPROVEMENT

NOTICE IS HEREBY GIVEN that on the 19th day of June, 1942, the Sanitary Board of the East Palo Alto Sanitary District adopted its Resolution of Intention No. 38 wherein it did declare that in its opinion the public interest and convenience required, and that it was the intention of said Board to order the following improvements to be made in and for said District, to-wit:

The construction of a sanitary sewerage trunk line and collection system in the following public roads, streets, alleys and rights of way in said District, to-wit:

PULGAS AVENUE between Woodland Avenue and Beech Street, and between Weeks Street and Bay Road; CLARK AVENUE between Woodland Avenue and O'Connor Street and between Donohoe Street and Green Street; COOLEY AVENUE between Bell Street and Bay Road; PARKINSON AVENUE between Donohoe Street and Runnymede Street; MANHATTAN STREET for its full length; MENALTO AVENUE between Woodland Avenue and Oak Court and in the intersection of the Bayshore Highway; WOODLAND AVENUE between Menalto Avenue and Euclid Avenue and between Cooley Avenue and Pulgas Avenue; OAK COURT for its full length from Woodland Avenue; BAYSHORE HIGHWAY between Cooley Avenue and Pulgas Avenue; O'CONNOR STREET between Cooley Avenue and Pulgas Avenue; DONOHOE STREET, GREEN STREET and BELL STREET between Cooley Avenue and Clark Avenue; MYRTLE STREET between Clark Avenue and Pulgas Avenue; GARDEN STREET and RUNNYMEDE STREET between Clark Avenue and the easterly district boundary; WEEKS STREET between Cooley Avenue and the easterly district boundary; BAY ROAD between Glen Way and the easterly district boundary; CALIFORNIA STREET for its full length; UNIVERSITY AVENUE between California Street and Bay Road; and the right of way running southeasterly from Bay Road on the easterly side of said district for a distance of 600 feet.

All of said work and improvements are to be constructed at the places and in the particular locations, of the forms, sizes, dimensions and materials, and at the lines, grades and elevations, shown and delineated on the plans, profiles and specifications adopted therefor by the Sanitary Board and on file for public inspection at the office of the Secretary of said Board.

And whereas said contemplated improvements, in the opinion of the Sanitary Board of said District, are of more than local or ordinary public benefit, and said Board makes the cost and expenses thereof, and the expenses incidental thereto, chargeable upon an assessment district to consist of the entire East Palo Alto Sanitary District, except the streets, public ways and public property therein being used in the performance of a public function.

Notice is hereby given that serial bonds to represent unpaid assessments, and bear interest at the rate of not to exceed five per cent (5%) per annum, will be issued hereunder in the manner provided by the Improvement Bond Act of 1915, the last installment of which bonds shall mature fourteen (14) years from the second day of July next succeeding ten months from their date.

Except as herein otherwise provided for the issuance of bonds, said work shall be done pursuant to an act of the California Legislature entitled "Municipal Improvement Act of 1913", (Deering Act No. 5215) as amended.

Notice is further given that pursuant to said Act and said resolution of intention adopted pursuant thereto, the District Engineer of said District did on the 19th day of June, 1942, file with the Secretary of the Sanitary Board of said District his report in writing on said improvements, consisting of a written report generally describing the proposed improvements to be made hereunder, and referring to the plans and profiles, specifications, estimate of costs and incidental expenses, diagram and assessment, filed with said Secretary as a part of said report, and that said Board did on said date consider and examine said report, and by resolution preliminarily approved and confirmed it as filed, without modification, and ordered that said report stand as the report for the purposes of all subsequent proceedings had pursuant to said resolution of intention.

NOTICE IS FURTHER GIVEN that Thursday, the 23rd day of July, 1942, at the hour of eight o'clock P. M. of said day, in the regular meeting place of said Sanitary Board, in the Ravenswood Elementary School House in said District, is the time and place appointed and fixed by said Board for hearing protests in relation to said proposed improvements; and that any person interested, objecting to said proposed improvements, or to the grades at which said work will be done, or the extent of the assessment district, or to the District Engineer's estimate of the costs and expenses thereof, or to the proposed diagram and assessment for the costs and expenses thereof, may file a written protest with the Secretary of said Sanitary Board at or before the time set for the hearing referred to herein.

Reference is hereby made to said resolution of intention, and said report, including said plans and profiles, specifications, estimate of costs, diagram and assessment, for a more particular description of said improvements to be had and done, and for further particulars, all on file in the office of the Secretary of said District at 495 O'Connor Street in said District.

Dated: June 19th, 1942.

CARROLL DaMANT,
Secretary of the Sanitary Board, East Palo Alto Sanitary District.

Soldiers of Production

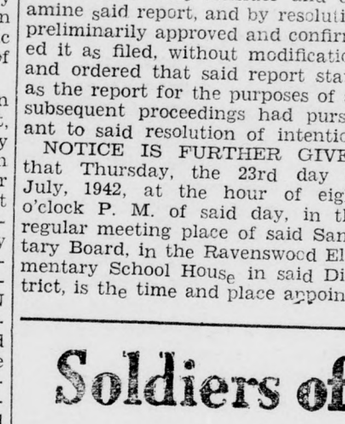

America's "soldiers of production," men and women working in the plants of American industry, have their uniforms, too. Some uniforms worn by G-E workers on vital production jobs are shown below.

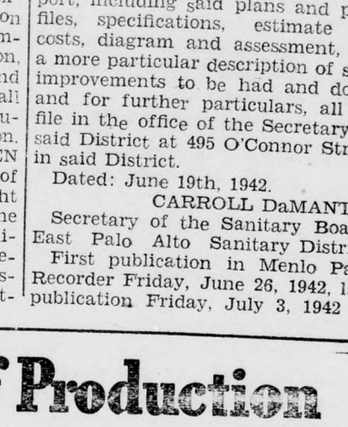

1. Not a gas mask, but a special nose mask to guard his breathing, is worn by this spray painter at his job in one of the General Electric plants.

2. Like a man from Mars, the "cold room" research man is a strange sight as he tests airplane instruments for high-altitude performance in a G-E laboratory.

3. Frankenstein? No, just another G-E worker. His job is sandblasting big turbine castings for Uncle Sam's ships at one of the General Electric plants.

4. The helmet he wears is to protect him from light! The rays from a welder's arc could cause blindness if he did not wear this strange headgear.

General Electric believes that its first duty as a good citizen is to be a good soldier.

General Electric Company, Schenectady, N. Y.
